2. Playing Clips 17

Loading Monitors 17
Play 18
Three-Button Play 19
Step Forward/Backward 20
Single-Frame Audio 21
Play In to Out & Play to Out 22

3. Basic Editing 23

Splice-In & Overwrite, Extract & Lift 23
Make a Straight Cut First, Then Overlap It 24
Three Marks Make an Edit 26

4. Timeline 27

Basic Navigation 27
The Smart Tool 28
The Track Control Panel 34
Waveforms 36
Video Quality 37
Scrolling and Paging 38
Patching 39
Track Selection 40
Track Height/Track Positions 41
Viewing the Source Timeline 42
Match Frame 42
Find Bin 44
Select Right/Left 44
Mark Clip 46
Cut, Copy and Paste 47
Timeline Views 49
Dupe Detection 50
Clip Color 51
Clip Text 53
Toggle Client Monitor 54

5. Composer Window 55

Monitor Tracking Data 56
Center Duration 57
Monitor Menus 57
Moving by Footage or Time 58
Fast Forward & Rewind 59
Timecode Window 60

Scaling the Composer Window 60
Hide Video 61
Markers 62
Find and PhraseFind 63
Gang 66
The Tool Palette 66
Buttons from Menus 66
Full Screen Playback & Open I/O 67

6. Edit Functions 69

Replace 69
Sync Point Editing 71
Filler 72
Add Edit 73
One-Step Pre-Lap 74
Audio Marks 75
Edit by Dragging 76
Exceptions to the Three-Mark Rule 77
Single Mark Editing 78
Hidden Marks and Marked Regions 78
Top and Tail 80
Combining Versions 80
Transition Preservation 82
Keyboard Safeguards 84

7. Trim Mode 85

Three Ways to Trim 85
Getting In and Out of Trim Mode 86
Adding and Deleting Rollers 88
Legacy Trim 90
Adjusting the Cut 91
Trim Lights/Dual Image Play 94
The Watch Point 94
Summary of Trim Selection Tips 95
Asymmetrical Trimming 95
Slip & Slide 96
Restore Previous Trim 98
Slip, Trim or Nudge 98
Extend 99
Changing the Trim Loop 99
Dissolves in Trim Mode 100
Trimming Keyframes 101

8. Sync 103

Sync Breaks....103
AutoSync....104
Slip by Perfs....105
Sync Locks....106
Leaders....108
Markers as Sync Indicators....109
Keeping a Client Monitor in Sync....109

9. Groups 111

Overview....111
Editing Group Clips....112
The Group Menu....113
Using Add Edit Live....114
The Multi-Camera Buttons....114
Groups in the Source Monitor....114
Multi-Camera Mode....115
Changing Displayed Cameras....117
Removing Group Clips....117

10. Bins 119

How Bin Data is Stored....119
Bin Management....120
Tabs....121
Clip Selection....122
Script View....123
Clip Frames....124
Subclips....124
Clones and Copies....125
Bin Columns....125
Entering Text for Several Clips at Once....127
Clip Info Window....127
Options for the Save Command....128
The Attic....129
Measuring Sequences....130
Bin Background Color....131
Bin Shortcuts....132

11. Script Integration 133

Introduction....133
Importing Your Script....134
Adding Coverage....135
Marking the Script....137

Editing 141
Settings 143

12. Audio 145

Overview 145
Audio Keyframes 146
The Audio Mixer 148
Trimming Keyframes 152
Stereo and Surround Tracks and Clips 153
Stereo and Surround Panning 156
Audio Output 159
Audio EQ 159
AudioSuite Effects 161
Enlarging the Timeline 166
Two Kinds of Audio Dissolves 166
iTunes for Music and Effects 167

13. Visual Effects 169

Applying Effects 169
Effect Mode 170
Nested Effects 172
Collapse/Submaster 173
Advanced Keyframes 174
Reduce and Enlarge Tools 182
3D Warp / Promote to 3D 183
Stabilize 184
Paint and Animatte 185
Timecode Burn-In 186
Motion Effects 186
Freeze Frames 191
Fades and Dissolves 192
Effect Summary 194
Measuring Effects with I/O 195
Render on the Fly 195
Effect Editor Settings 195

14. Color Correction 197

Controls Overview 197
Matching Color 200
Playing Across Cuts 201
Correcting Several Shots at Once 202
Keyframing Color Corrections 202
Color Correction Mode and Workspaces 203

15. Titles 205

Creating a Title....205
Title Toolbar....206
Text....206
Colors....206
Shadows....207
Changing an Existing Title....208
Styles....209
Templates....210
Layout Grid....210
Fades....211

16. Projects and Media 213

Project Types....213
Media Creation....214
Audio Media....215
The Media Tool....215
Show Media Files....216
Delete Unused Render Files....217
Show Offline Items....217
Deleting Media Databases....217
Importing and Exporting....218
Avid Media Access (AMA)....221
Mixing Frame Rates (Mix and Match)....227
Video Aspect Ratio....229
Copying Media For a Scene or Scenes....230
Unlink....231

17. Film and 24p Video 233

A Multi-Frame-Rate World....233
Telecine and Transfer Fundamentals....234
24p Video....235
24-fps Timecode....235
Advanced Pulldown....236
Pullin....237
Pulldown Problems....238
30 vs. 29.97 fps....239
Digital Audio....239
Drop-Frame vs. Non-Drop-Frame Timecode....240
Sync Problems....241
Avid Project Types for 24-fps Media....241
Matchback....242

18. Film Lists 245

Assemble Lists....245
FilmScribe and Media Composer....248
Change Lists....248
Checking a Change List....249
Timecodes in Cut and Change Lists....250
Lock Tracks....250
Multi-Sequence Change Lists....251
Optical Lists....252
3-Perf & 4-Perf Film Originals....253
FilmScribe Versions....253

19. Settings 255

Terminology....255
Making New Settings....256
Restore Default Settings....256
Users and User Profiles....257
Taking Your Settings With You....258
Moving Individual Settings....259
Site Settings....260
Workspaces and Bin Layouts....260

20. Suggested Settings 263

Interface....263
Keyboard....264
Mouse....266
Trim Settings....266
Composer Window....266
Timeline....268
Bin Settings/Save and Auto-Save....269

Afterword....271

Acknowledgments....272

Index....273
